Subject: Submission of six monthly compliance report for period ending 31.03.2022 for the group housing project namely "ATS Golf Meadows Lifestyle" located at Village Madhopur, Tehsil Derabassi, Distt. SAS Nagar (Mohali), Punjab.

Respected Sir,

With reference to the EIA Notification & its amendments regarding submission of six monthly compliance report, we are hereby submitting the six monthly compliance report for period ending 31.03.2022 for the above said project through mail for your perusal.

Kindly acknowledge the receipt of the same.

Thanking you

For ATS Estates Private Limited
Sincerely,
For M/s ATS Estates Pvt. Ltd.

DATA SHEET

1.	Project Type	Group Housing Project
2.	Name of the Project	“ATS Golf Meadows Lifestyle”
3.	Clearance letter (s)/O.M No. & dates	Environmental Clearance has been granted vide Letter No. SEIAA/M.S./2012/2967 dated 11.07.2012; copy of EC letter is attached along as Annexure-1(a) . Further, EC Expansion has been obtained from SEIAA, Punjab vide Letter No. SEIAA/2017/896 dated 05.05.2017; copy of EC expansion is attached along as Annexure-1(b) .
4.	Location	Village Madhopur, Tehsil Derabassi
	a) District (s)	SAS Nagar
	b) State (s)	Punjab
	c) Latitudes/ Longitudes	30°35'31.90" N & 76°51'8.92" E
5.	Address for correspondence	ATS Golf Meadows, Chandigarh Ambala Road, Opp. Sadashiv Complex, Near Derabassi-Barwala Chowk, Derabassi, Distt. SAS Nagar, Punjab-140507.
6.	Salient features	
	a) of the project	As per the Environmental Clearance, the total project area of the project is 1,11,921.03 sq.m (or 27.65 acres) and total built up area will increase from 1,48,898.53 sq.m to 2,97,587.66 sq.m after expansion.
	b) of the environmental management plans	Total water requirement for the project after expansion will be 1,072 KLD, out of which 795 KLD will be met from groundwater with the help of the bore well and remaining 270 KLD will be met through treated wastewater. The total wastewater generation from the project after expansion will be 858 KLD which will be treated in centralized STP of Municipal Council, Derabassi. The total quantity of solid waste generated from the project will be 2,887 kg/day which will be collected

		and segregated as biodegradable and non-biodegradable components as per as the Solid Waste Management Rules, 2016. The total power requirement for the project will be 7,000 KW which will be supplied by PSPCL.
7.	Break-up of the project area	
	a) Submergence area: Forest and Non-forest	Not applicable
	b) Others	Not applicable
8.	Break-up of project affected population with enumeration of those losing houses/dwelling units only, agricultural land only both dwelling units and agricultural land and landless labourers/artisans.	Not applicable
	a) SC/ST/Adivasis	Not applicable
	b) Others <i>(Please indicate whether these figures are based on any scientific and systematic survey carried out or only provisional figures. If a survey has been carried out give details and year of survey)</i>	Not applicable
9.	Financial details:	
	a) Project cost as originally planned and subsequent revised estimates and the year of price reference.	Rs.307.21 Crores. (originally planned) Further, revised estimate of the project cost in the year 2020 is Rs. 436.89 Crores.
	b) Allocations made for environmental management plans with item wise and year wise break up.	During construction phase, Rs. 21 lakhs will be incurred for implementation of EMP as capital cost and Rs. 10 lakhs per annum will be incurred on account of recurring charges. During operation phase, Rs. 126 lakhs will be incurred for implementation of EMP as capital cost and Rs. 12 lakhs per annum will be incurred on account of recurring charges.
	c) Benefit cost ratio/internal rate of return and the year of	Will be calculated and submitted separately.

	assessment																						
	d) Whether (c) includes the cost of environmental management as shown in b) above.	Yes																					
	e) Actual expenditure incurred on the project so far.	Rs. 171.04 Crores has been spent on the project till 31.03.2022.																					
	f) Actual expenditure incurred on the environmental management plans so far.	<p>Actual expenditure done on Environmental Management Plan (EMP) till 31.03.2022 with break-up is given as below:</p> <table border="1"> <thead> <tr> <th>Sl. No.</th><th>Title</th><th>Amount Spent (in Rs.)</th></tr> </thead> <tbody> <tr> <td>1.</td><td>Air pollution control</td><td>16,24,850</td></tr> <tr> <td>2.</td><td>Green belt & Landscaping</td><td>80,56,209</td></tr> <tr> <td>3.</td><td>Energy conservation</td><td>1,04,220</td></tr> <tr> <td>4.</td><td>Management of Solid Waste</td><td>62,90,640</td></tr> <tr> <td>5.</td><td>Rain water recharging pits</td><td>2,72,500</td></tr> <tr> <td colspan="2">Total</td><td>Rs. 1,63,48,419</td></tr> </tbody> </table>	Sl. Rain water recharging pits	2,72,500	Total		Rs. 1,63,48,419
Sl. No.	Title	Amount Spent (in Rs.)																					
1.	Air pollution control	16,24,850																					
2.	Green belt & Landscaping	80,56,209																					
3.	Energy conservation	1,04,220																					
4.	Management of Solid Waste	62,90,640																					
5.	Rain water recharging pits	2,72,500																					
Total		Rs. 1,63,48,419																					
10.	Forest land requirement:	No forest land is involved in the project.																					
	a) the status of approval for diversion of forest land for non-forestry use	Not Applicable.																					
	b) the status of clear felling, if any	Not Applicable.																					
	c) the status of compensatory afforestation, if any.	Not Applicable.																					
	d) Comments on the viability & sustainability of compensatory Afforestation programme in the light of actual field experience so far.	Not Applicable.																					
11.	The status of clear felling in non-forest areas (<i>such as submergence area of reservoir, approach road</i>) if any, with quantitative information	Not applicable																					
12.	Status of construction:	<p>Project is partially in operational phase. The current construction status of project is given as below:</p> <ul style="list-style-type: none"> • Tower 1 to 4 - Completed 																					

		<ul style="list-style-type: none"> • Tower 5 - Completed (Completion applied) • Tower 6- structure, brick work and internal plaster completed. • Tower 7- structure complete brick work and plaster in progress. • Community Centre 1 and Commercial Centre- Completed (Completion applied). <p>Photographs showing the status of construction are attached along as Annexure-2.</p>
	a) Date of commencement (actual and /or planned)	December, 2011
	b) Date of completion (actual and or planned)	January, 2027 (Planned)
13.	Reasons for the delay, if the project is yet to start	Not applicable

Compliance report on conditions imposed in Environmental Clearance of “ATS Golf Meadows Lifestyle” for Period ending 31.03.2022

PART A – Conditions common for all the three phases i.e. Pre-Construction Phase, Construction Phase and Operation Phase & Entire Life:

Sl.No.	Compliance Conditions	Reply
(i)	Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Not applicable, as 30 days' time period already passed and no appeal against this EC was raised.
(ii)	A first aid room will be provided in the project both during construction and operation phase of the project.	First aid room has been provided at the construction site and will continue during the operational phase also. Photograph showing the same is enclosed as Annexure-2 .
(iii)	Construction of the STP, solid waste, e-waste, hazardous waste, storage facilities tubewell, DG Sets, Utilities etc., earmarked by the project proponent on the layout plan, should be made in the earmarked area only. In any case the position/location of these utilities should not be changed later-on.	STP, DG sets etc. are provided in the earmarked area only as per the approved layout plan.
(iv)	The environmental safeguards contained in the application of the promoter / mentioned during the presentation before State Level Environment Impact Assessment Authority/State Expert Appraisal Committee should be implemented in letter and spirit.	Environmental safeguards are being implemented in true letter and spirit.
(v)	Ambient air & noise levels should conform to prescribed standards both during day and night. Incremental pollution loads on the ambient air quality, noise especially during worst noise generating activities, water quality and soil should be periodically monitored during construction phase as well as operation & entire life phase as per the Ministry of Environment, Forests & Climate Change guidelines and all the mitigation measures should be taken to bring down the levels within the prescribed standards.	Monitoring has been done on half yearly basis by NABL accredited laboratory and results are found within the permissible limit. Latest test reports are enclosed along as Annexure-3 .

(vi)	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, and Civil Aviation Department etc. shall be obtained, by the project proponent from the competent authorities including Punjab Pollution Control Board and from other statutory bodies as applicable.	<p>All the necessary approvals are being obtained as and when required. Some approvals obtained from various concerned departments till date are given as below:</p> <ul style="list-style-type: none"> • Consent to Establish (CTE) has been obtained from PPCB and is valid till 31.05.2022 and further the application for CTE has been filed; copy of Grant certificate as well as acknowledgement of applied CTE is attached along as Annexure-4. • Consent to Operate (CTO) under Air & Water Act had been obtained from PPCB and further the application for renewal of Consent to Operate (CTO) has been filed; copy of Grant certificate as well as acknowledgement of applied CTO is attached along as Annexure-5. • Structural safety certificate has been obtained from competent authority; copy of the same is attached along as Annexure-6. • NOC has been obtained from Fire Department; copy of the same is attached along as Annexure-7.
(vii)	The State Environment Impact Assessment Authority, Punjab reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/ measures in a time bound and satisfactory manner.	Noted.
(viii)	A proper record showing compliance of all the conditions of environmental clearance shall be maintained and made available at site at all the times.	Proper record showing compliance of all the conditions of environmental clearance are being maintained and same is available at site.

(ix)	The project proponent shall also submit half yearly compliance reports in respect of the stipulated prior environmental clearance terms & conditions including results of monitored data (both in hard & soft copies) to the respective Regional Office of MoEF, the Zonal Office of CPCB, the SPCB and SEIAA, Punjab on 1 st June and 1 st December of each calendar year.	Six monthly reports are being submitted regularly to RO, MoEF&CC and SEIAA, Punjab in due time. Further, acknowledgement for previous submitted six monthly compliance report to MoEF&CC as well as screenshot for uploaded compliance on Parivesh Portal for period ending 30.09.2021 is enclosed as Annexure-8 .
(x)	Officials from the Regional Office of Ministry of Environment & Forests, Chandigarh / State Level Environment Impact Assessment Authority / State Level Expert Appraisal Committee / Punjab Pollution Control Board who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to State Environment Impact Assessment Authority should be forwarded to the APCCF, Regional Office of Ministry of Environment & Forests, Chandigarh.	Full cooperation, facilities and documents/ data will be given to the Officials from Regional Office of Ministry of Environment & Forests, Chandigarh/ State Level Environment Impact Assessment Authority/ State Level Expert Appraisal Committee/ Punjab Pollution Control Board during their inspection.
(xi)	In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by State Environment Impact Assessment Authority, Punjab.	Noted. If any changes will be made then, fresh application will be submitted to State Environment Impact Assessment Authority, Punjab.
(xii)	Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (Civil) No. 460 of 2004 as may be applicable to this project and decisions of any Competent Court, to the extent applicable.	Noted.
(xiii)	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF&CC, SEIAA, Punjab the respective Zonal Office of CPCB and the SPCB.	Status of compliance of the stipulated EC conditions, including results of monitored data are being uploaded periodically on the website of company. However, website is under maintenance for updation. Previous submitted compliance report will be uploaded on

	The criteria pollutant levels for all the parameters of NAAQM standards shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	company's website once it starts working.
(xiv)	The inlet and outlet point of natural drain system should be maintained with adequate size of channel for ensuring unrestricted flow of water.	Agreed.
(xv)	The unpaved area shall be more than or equal to 20% of the recreational open spaces.	Agreed.
(xvi)	The project proponent shall comply with the provisions of Construction and Demolition Waste Rules, 2016.	Agreed.

PART - B - SPECIFIC CONDITIONS:

I. Pre – Construction Phase

Sl.No.	Compliance Conditions	Reply
(i)	“Consent to Establish” shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority before the start of any construction work at site.	Consent to Establish (CTE) has been obtained from PPCB and is valid till 31.05.2022 and further the application for CTE has been filed; copy of Grant certificate as well as acknowledgement of applied CTE is attached along as Annexure-4 .
(ii)	All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.	Proper sanitary and hygienic conditions are being maintained at the site at all times.
(iii)	The approval of competent authority shall be obtained for structural safety of the buildings due to earthquakes, adequacy of firefighting equipment etc. as per National Building Code including protection measures from lightning.	Structural safety certificate has been obtained from competent authority; copy of the same is attached along as Annexure-6 . Also, NOC has been obtained from Fire Department; copy of the same is attached along as Annexure-7 .
(iv)	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel	All the necessary facilities like housing, medical check-up, electricity, crèche, separate toilets etc. are being provided

	for cooking, mobile toilets, mobile STP, disposal of waste water & solid waste in an environmentally sound manner, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project	to labors at site.
--	---	--------------------

II. Construction Phase:

Sl.No.	Compliance Conditions	Reply
(i)	All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.	Topsoil excavated during construction activities is being used for the development of green area within project premises to the maximum possible extent. Photographs showing green area within project is attached along as Annexure-2.
(ii)	Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed off after taking the necessary precautions for general safety and health aspects of people with the approval of competent authority. The project proponent will comply with the provisions of Construction & Demolition Waste Rules, 2016. Dust, smoke & debris prevention measures such as wheel washing, screens, barricading and debris chute shall be installed at the site during construction including plastic/ tarpaulin sheet covers for trucks bringing in sand & material at the 73 site.	No muck is being generated from construction activities so there is no adverse effect on the environment. Further, C&D waste generated from the construction activities is being reused within project for levelling purpose. Also, construction site is fully barricaded to avoid dust emissions and construction material is kept covered.
(iii)	Construction spoils, including bituminous material and other hazardous material, must not be allowed to contaminate watercourses. The dump sites for such material must be secured, so that they should not leach into the groundwater.	Construction spoils are kept to minimum. In case of spoil generation, immediate action will be taken to collect the spoiled material and disposed to secured site.
(iv)	Vehicles hired for bringing construction material	Vehicles are regularly checked for

	to the site and other machinery to be used during construction should be in good condition and should conform to applicable air emission standards.		the pollution under control certificates. Copy of the PUC certificates is attached as Annexure 9 .
(v)	The project proponent shall use only treated sewage/wastewater for construction activities and no fresh water for this purpose will be used. A proper record in this regard should be maintained and available at site.		Only treated wastewater is being used for construction activities.
(vi)	Fly ash based construction material should be used in the construction as per the provisions of Fly Ash Notification of September, 1999 and as amended on August, 2003 and notification No. S.O. 2804 (E) dated 03.11.2009.		Fly ash of quantity 1988.68 MT amounting Rs. 21,38,911/- has been used as construction material till 31.03.2022.
(vii)	Water demand during construction should be reduced by use of ready mixed concrete, curing agents and other best practices.		During construction phase, water demand is reduced by use of curing agents as well as by adopting other best practices.
(viii)	Adequate treatment facility for drinking water shall be provided, if required.		Noted.
(ix)	The project proponent shall provide electromagnetic flow meter at the outlet of the water supply, outlet of the STP and any pipeline to be used for re-using the treated wastewater back into the system for flushing and for horticulture purpose/green etc.		Electromagnetic flow meter at the outlet of water supply has been provided. Records are being maintained on daily basis.
(x)	The project proponent will provide dual plumbing system for reuse of treated wastewater for flushing/ HVAC purposes etc. and colour coding of different pipe lines carrying water/wastewater/ treated wastewater as follows:		Dual plumbing system for reuse of treated wastewater has been provided.
(a)	Fresh water	Blue	
(b)	Untreated wastewater	Black	
(c)	Treated wastewater (for reuse)	Green	
(d)	Treated wastewater (for discharge)	Yellow	
(e)	Storm water	Orange	
(xi)	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or		Appropriate measures have been adopted in the project to save the

	pressure reducing devices or sensor based control.	water.
(xii)	Separation of drinking water supply and treated sewage supply should be done by the use of different colors.	Different colour pipelines have been used for separation of water supply and treated sewage supply.
(xiii)	(a) Adequate steps shall be taken to conserve energy by limiting the use of glass, provision of proper thermal insulation and taking measures as prescribed under the Energy Conservation Building Code and National Building Code, 2005 on Energy conservation.	Appropriate measures are taken to conserve the energy as per the Energy Conservation Building Code and National Building Code, 2005 on Energy conservation.
	(b) Solar power plant of capacity 216 KW shall be installed for utilizing solar energy. Also, LED lights shall be provided as proposed for illumination of common areas instead of CFL lights.	Solar lights, LED & CFL Lights has been provided to conserve energy. Photographs attached along as Annexure-2 .
(xiv)	The diesel generator sets to be used during construction phase should conform to the provisions of Diesel Generator Set Rules prescribed under the Environment (Protection) Act, 1986.	Only diesel based generator set is being used in project.
(xv)	Separate wet & dry bins at ground level and for common areas for facilitating segregation of waste, collection centre and mechanical 03 mechanical composter of 500 kg/day capacity each, shall be provided for proper collection, handling, storage, segregation, treatment and disposal of solid waste. The project proponent shall comply with the provisions of Municipal Solid Waste (Management and Handling) Rules, 2016.	The project is complying with the provisions of Municipal Solid Waste (Management and Handling) Rules, 2016. Proper segregation of waste is being done at site. Separate wet & dry bins have been provided and mechanical composter of capacity 500 Kg has already installed for composting of Biodegradable waste.
(xvi)	The project proponent shall provide 30 rainwater harvesting pits at site as proposed.	Total 8 no. rainwater harvesting pits have been constructed within project to recharge ground water.
(xvii)	Green belt of adequate width as proposed shall be provided so as to achieve attenuation factor conforming to the day & night standards prescribed for residential land use. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous species/variety. A minimum of one	Adequate green area has been provided within project premises. Photographs showing green area are attached as Annexure-2 .

	tree for every 80 sq.m of land shall be planted and maintained. The existing trees may be counted for this purpose. Preference should be given to planting native species. Where the trees need to be cut, compensatory plantation in the ratio of 1:3 (i.e. planting of three trees for every one tree that is cut) shall be done with the obligation to continue maintenance	
--	--	--

III. Operation Phase and Entire Life:

Sl.No.	Compliance Conditions	Reply
(i)	“Consent to Operate” shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority at the time of start of operation.	Consent to Operate (CTO) under Air & Water Act had been obtained from PPCB and further the application for renewal of Consent to Operate (CTO) has been filed; copy of Grant certificate as well as acknowledgement of applied CTO is attached along as Annexure-5 .
(ii)	The total water requirement for the project will be 1,403 KLD, out of which 1,083 KL/day will be met through existing borewell and remaining 320 KL/day will be met through recycling of treated wastewater.	Application has been submitted to CGWA to obtain permission regarding abstraction of ground water. Recommendation letter has been issued by CGWB, Chandigarh; copies of the same are attached along as Annexure-10 . Further, as per the latest Notification, CGWA is not processing ground water applications for Punjab State. Consequently, Punjab Ground Water Regulation & Development Authority (PWRDA) has been constituted to grant NOC's for abstraction of ground water. Thus, approval from PWRDA regarding abstraction of ground water is in process.
(iii)	a) The total wastewater generation from the project will be 1,122 KLD, which will be treated in a	Wastewater generated from the project is being treated in the

	centralized STP capacity of 4 MLD of Municipal Council, Derabassi. As proposed, reuse of treated wastewater and fresh water shall be as below:	centralized Sewage Treatment Plant installed by MC Derabassi of 4 MLD capacity.																
	<table><tr><th>Season</th><th>Reuse for flushing (KLD)</th><th>For horticulture purpose (KLD)</th><th>Discharge into sewer (KLD)</th></tr><tr><td>Summer</td><td>320</td><td>208</td><td>594</td></tr><tr><td>Winter</td><td>320</td><td>68</td><td>734</td></tr><tr><td>Rainy</td><td>320</td><td>19</td><td>783</td></tr></table>	Season	Reuse for flushing (KLD)	For horticulture purpose (KLD)	Discharge into sewer (KLD)	Summer	320	208	594	Winter	320	68	734	Rainy	320	19	783	
Season	Reuse for flushing (KLD)	For horticulture purpose (KLD)	Discharge into sewer (KLD)															
Summer	320	208	594															
Winter	320	68	734															
Rainy	320	19	783															
	b) Storage tank of adequate capacity shall be provided for the storage of treated wastewater and all efforts shall be made to supply the same for construction purposes. Only, the surplus treated wastewater shall be discharged onto land for plantation to be developed as per Karnal Technology/ into sewer after maintaining the proper record.	Noted. Same has been complied.																
(iv)	The project proponent shall ensure safe drinking water supply to the habitants.	Noted.																
(v)	The wastewater generated from swimming pool(s) if provided shall not be discharged and the same shall be reused within the premises for purposes such as horticulture, HVAC etc.	Noted.																
(vi)	A proper record regarding groundwater abstraction, water consumption, its reuse and disposal shall be maintained on daily basis and shall maintain a record of readings of each such meter on daily basis.	Proper record of ground water abstraction is being maintained and same is available at site.																
(vii)	Rainwater harvesting/ recharging systems shall be operated and maintained properly as per CGWA guidelines.	Total 8 no. rainwater harvesting pits have been constructed within project to recharge ground water.																
(viii)	The project proponent shall provide chute for the collection of solid waste. The facilities provided for collection, segregation, handling, on site storage & processing of solid waste, wet & dry bins, collection centre & mechanical composter etc. shall be properly maintained. The collected solid waste shall be segregated at site. The recyclable solid waste shall be sold out to the authorized vendors for which	<p>The project is complying with the provisions of Municipal Solid Waste (Management and Handling) Rules, 2016. Proper segregation of waste is being done at site.</p> <p>Separate wet & dry bins have been provided and mechanical composter of capacity 500 Kg has already</p>																

	a written tie-up must be done with the authorized recyclers. Organic waste shall be composted by mechanical composters with a minimum capacity of 0.3 kg/tenement/day and the inert solid waste shall be sent to the concerned collection centre of integrated municipal solid waste management facility of the area. A proper record in this regard shall be maintained.	installed for composting of Biodegradable waste. The recyclable solid waste shall be sold out to the authorized vendors. Only the inert solid waste is being sent to the MC Dumping site.
(ix)	The project proponent shall comply with the provisions of Municipal Solid Waste (Management and Handling) Rules, 2016.	The project is complying with the provisions of Municipal Solid Waste (Management and Handling) Rules, 2016. Proper segregation of waste is being done at site.
(x)	Hazardous waste/E-waste should be disposed off as per Rules applicable and with the necessary approval of the Punjab Pollution Control Board.	Noted. Same will be complied.
(xi)	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.	Proper parking has been provided within the project premises. Photographs showing the same are attached along as Annexure-2 .
(xii)	The green belt along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use.	Green belt has been provided within the project premises. Photographs showing the same are attached along as Annexure-2 .
(xiii)	Solar power plant and other solar energy related equipments shall be operated and maintained properly.	Noted. Same is being complied.
(xiv)	A report on the energy conservation measures conforming to energy conservation norms should be prepared incorporating details about machinery of air conditioning, lifts, lighting, building materials, R & U Factors etc. and submitted to the respective Regional office of MoEF, the Zonal Office of CPCB and the SPCB/SEIAA in three months' time.	The same will be submitted.
(xv)	Environmental Management Cell shall be formed during operation phase which will supervise and monitor the environment related aspects of the project.	Environmental Management Cell has already been formed to deal with environment related aspects of the project which is supervised and monitored by: <ul style="list-style-type: none"> • Mr. Rajesh Seth – APM.

		<ul style="list-style-type: none"> • Mr. Sandeep Singh-Senior Facility Manager. • Pradeep-Sr. PE Plumbing & Firefighting
--	--	--

PART C – GENERAL CONDITIONS:

I. Pre-Construction Phase:

Sl.No.	Compliance Conditions	Reply
(i)	This environmental clearance will be valid for a period of seven years from the date of its issue or till the completion of the project, whichever is earlier.	Environmental Clearance for expansion of project has been granted vide Letter No. SEIAA/2017/896 dated 05.05.2017. The same is valid till 04.05.2027 as per the EIA Notification & its amendments.
(ii)	The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental clearance and copies of clearance letters are available with the Punjab Pollution Control Board. The advertisement should be made within seven days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office, Ministry of Environment & Forests, Chandigarh and SEIAA, Punjab.	Advertisement has been published in the newspaper regarding grant of EC; copy of the advertisement published is already submitted.
(iii)	The project proponent shall obtain permission from the CGWA for abstraction of groundwater & digging of bore well(s) and shall not abstract any groundwater without prior written permission of the CGWA, even if any bore well(s) exist at site.	Application has been submitted to CGWA to obtain permission regarding abstraction of ground water. Recommendation letter has been issued by CGWB, Chandigarh; copies of the same are attached along as Annexure-10 . Further, as per the latest Notification, CGWA is not processing ground water applications for Punjab State. Consequently, Punjab Ground Water Regulation & Development

		Authority (PWRDA) has been constituted to grant NOC's for abstraction of ground water. Thus, approval from PWRDA regarding abstraction of ground water is in process.
(iv)	The project proponent shall obtain CLU from the competent authority.	CLU has already been obtained. Copy of same already submitted.
(v)	A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zilla Parishad/ Municipal Corporation, Urban local body and the local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.	Copy of EC letter has already been submitted to all concerned departments. Receipt of the same submitted to Municipal Council, Derabassi is attached along as Annexure-11 .

II. Construction Phase:

Sl.No.	Compliance Conditions	Reply
(i)	The Environment Management Cell shall adhere to the commitments made in the Environment Management Plan for the construction phase and Corporate Social Responsibility and shall spend minimum amount of Rs. 21 Lacs as capital cost & Rs.10 lacs/annum as recurring cost. The project proponent shall adhere to the commitments made in the proposal for CSR activities and shall spend a minimum amount of Rs.248.65 lacs as proposed.	Total amount spent on Environment Management Plan (EMP) of the project till 31.03.2022 is Rs.163.48 lakh. Also, Rs.256.11 Lakhs has been spent so far on various CSR activities undertaken.

III. Operation Phase and Entire Life:

Sl.No.	Compliance Conditions	Reply
(i)	a) The entire cost of the environmental management plan will continue to be borne by the project proponent until the responsibility of environmental management plan is transferred to the occupier/residents society under proper MOU under intimation to SEIAA, Punjab. The project	Noted. Entire cost of the environmental management plan is being borne by the Company till the project will be handed over to Residents Welfare Society. Total amount spent on Environment

	proponent shall spend minimum amount of Rs.126 lacs as capital cost and Rs.12 lacs per 77 annum as recurring cost for implementation of EMP	Management Plan (EMP) of the project till 31.03.2022 is Rs.163.48 lakh.
	b) The project proponent shall specifically spend Rs.107.85 lacs/annum on the CSR activities i.e. Environmental Mela, Crèche & School for labour kids, Distribution of clothes, books and items in the nearby villages, Arrangement of Sports competition in nearby schools, Beautification of chowk, Health checkup camps & Landscaping and maintenance of DVA Chowk Dera Bassi and will also facilitate GMADA for laying sewer pipelines through their own ATS land valued Rs. 6 Crores for connection with Govt. STP as proposed.	Rs.256.11 Lakhs has been spent so far on various CSR activities undertaken.
(ii)	The diesel generator sets to be provided shall conform to the provisions of Diesel Generator Set Rules prescribed under the Environment (Protection) Act, 1986. The exhaust pipe of DG set if installed must be minimum 10 m away from the building or in case it is less than 10 m away, the exhaust pipe shall be taken upto 3 m above the building.	DG sets provided are conforming the prescribed standards for air and noise emissions as per Environmental (Protection) Act, 1986. Test reports is attached as Annexure-3 .

Dated 11.07.2012

To

M/s ATS Estates (P) Ltd.,
SCO 41-42, 1st Floor, Sector 8-C,
Madhya Marg, Chandigarh.

Subject: Environmental Clearance under EIA notification dated 14.09.2006 for developing a Group Housing Project namely 'ATS Golf Meadow Lifestyle-1' in the revenue estate of Village Madhopur, Tehsil Dera Bassi, District SAS Nagar by M/s ATS Estates (P) Ltd.,

This has reference to your application obtaining Environmental Clearance under EIA notification dated 14.09.2006 for developing a Group Housing Project namely 'ATS Golf Meadow Lifestyle-1' in the revenue estate of Village Madhopur, Tehsil Dera Bassi, District SAS Nagar and subsequent presentation given before the State Level Expert Appraisal Committee (SEAC) for seeking prior environmental clearance for subject cited project as required under the EIA Notification, 2006. The proposal has been appraised as per procedure prescribed under the provisions of EIA Notification dated 14.09.2006 on the basis of the mandatory documents enclosed with the application viz., Form-1, 1-A, conceptual plan and the additional clarifications furnished in response to the observations of the SEAC.

It is inter-alia noted that the total plot area of the proposed project is 105911.08 sq. m (10.59 hectares) in which 568 no. of flats for general public, 60 flats for EWS and 22 no. of shops will be constructed having total built up area of 1,48,898.53 sq. m. The site of the project falls within M.C. limits of Dera Bassi. The total expected population of the project will be 3188 persons. The total water requirement for domestic purpose will be 426 KLD, out of which 316 KLD will be met

from groundwater by installing tubewell and remaining 110 KLD will be met by recycling of treated wastewater. The total wastewater generation from the proposed project will be about 383 KLD, which will be treated in a STP of capacity 400 KLD. The STP will be installed based on activated sludge process, consisting of screen & grit chamber, aeration tank, clarifier, treated wastewater storage tank, pressure sand filter, activated carbon filter, UV disinfection unit and sludge holding/digestion tank. The total treated wastewater generation from STP will be 383 KLD, out of which 110 KLD will be used for flushing purpose, 175 KLD for horticulture/green area and remaining 98 KLD will be discharged into M.C. sewer during summer season. In rainy season, 110 KLD of treated wastewater will be used for flushing purpose and remaining 273 KLD will be discharged into M.C. sewer. In winter season, 216 KLD will be discharged into sewer, 57 KLD will be used for horticulture/green area and 110 KLD will be used for flushing purpose. The total quantity of MSW has been estimated as 1265 Kg/day, which will be segregated at source. The bio-degradable component and inert waste will be dumped on the dumping site of M.C. Dera Bassi. The recyclable components of the solid waste will be sold out to the recyclers. The total power requirement will be 3850 KW, which will be supplied by PSPCL. There is a provision to install DG sets as power back-up source. The project proponent has proposed to install rain water harvesting pits to replenish the groundwater.

The case was considered by the SEAC in its 53rd meeting held on 24.11.2011 and 57th meeting held on 27.03.2012 and the observations of the Committee were conveyed to the project proponent from time to time for compliance of the same. After submission of reply by the project proponent of the observations of the Committee, the case was considered by the SEAC in its 60th meeting held on 17.06.2012 and the Committee observed that the project proponent has provided adequate and satisfactory clarifications of the observations raised by it, therefore, the Committee awarded '**Silver Grading**' to the project proposal and decided to forward the case to the SEIAA, with the recommendation to grant environmental clearance to the project proponent subject to certain conditions, in addition to the proposed measures.

The case was considered by the SEIAA in its 38th meeting held on 22.06.2012 and the observations of the Authority were conveyed to the project proponent for compliance of the same. Thereafter, the project proponent submitted the reply of the observations of SEIAA and the proposal was considered by the SEIAA in its 39th meeting held on 04.07.2012 and the Authority noted that the case stands recommended by SEAC and the Committee awarded 'Silver Grading' to the project proposal. The Authority looked into all the aspects of the project proposal in detail and was satisfied with the same. Therefore, the Authority decided to grant environmental clearance under EIA Notification dated 14.9.2006 to the project proponent for construction of Group Housing Project namely 'ATS Golf Meadow Lifestyle-1' in an area of 1,05,911.08 sqm {for construction of six towers (ground + eighteen storeys) each, one tower (ground + thirteen storeys), seven towers (ground + one storey) each and EWS (ground + one storey) having built up area of 1,48,898.53 sqm}, in the revenue estate of Village Madhopur, Tehsil Dera Bassi, District SAS Nagar, subject to the following conditions, in addition to the proposed measures:

PART A – Specific conditions

I. Construction Phase

- i) "Consent to establish" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority before the start of any construction work at site.
- ii) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
- iii) A first aid room will be provided in the project both during construction and operation phase of the project.
- iv) All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- v) Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed off after taking the necessary precautions for general safety and health aspects of people with the approval of competent authority.
- vi) Construction spoils, including bituminous material and other hazardous material, must not be allowed to contaminate watercourses and the dump

sites for such material must be secured, so that they should not leach into the ground water.

- vii) The diesel generator sets to be used during construction phase should be of low sulphur diesel type and should conform to the provisions of Environment (Protection) Act, 1986 prescribed for air and noise emission standards.
- viii) Vehicles hired for bringing construction material to the site and other machinery to be used during construction should be in good condition and should conform to applicable air and noise emission standards.
- ix) Ambient noise levels should conform to prescribed standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase.
- x) Fly ash should be used as construction material in the construction as per the provisions of Fly Ash Notification of September, 1999 and as amended on August, 2003 (This condition is applicable only if the project is within 100 Km of Thermal Power Station).
- xi) Ready mixed concrete should be used in building construction as far as possible.
- xii) Water demand during construction should be reduced by use of premixed concrete, curing agents and other best practices.
- xiii) Separation of drinking water supply and treated sewage supply should be done by the use of different colours.
- xiv) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
- xv) Adequate steps shall be taken to conserve energy by limiting the use of glass, provision of proper thermal insulation and taking measures as prescribed under the Energy Conservation Building Code.
- xvi) The approval of competent authority shall be obtained for structural safety of the buildings due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightning.
- xvii) Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, disposal of waste water & solid waste in an environmentally sound manner, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

II. Operation Phase

- i) The installation of sewage treatment plant (STP) and adequacy of disposal system should be certified by Punjab Pollution Control Board and a report in this regard should be submitted to the Ministry of Environment & Forests/State Level Environment Impact Assessment Authority before the project is commissioned for operation. The discharge of treated sewage shall conform to the norms and standards prescribed by Punjab Pollution Control Board for such discharges. The project proponent shall

discharge not more than 273 KLD of treated wastewater into public sewer and no fresh water will be used for irrigation of green belt / gardens / horticulture purpose.

- ii) The project proponent shall provide electromagnetic flow meter at the outlet of the water supply, outlet of the STP and any pipeline to be used for re-using the treated wastewater back into the system for flushing and for horticulture purpose/green etc. and shall maintain a record of readings of each such meter on daily basis.
- iii) Adequate & appropriate pollution control measures should be provided to control fugitive emissions to be emitted within the commercial complex.
- iv) Adequate treatment facility for drinking water shall be provided, if required.
- v) Rainwater harvesting for roof run-off should be implemented. Before recharging the roof run-off, pretreatment must be done to remove suspended matter, oil and grease. However, no run off from gardens/green area/roads/pavements shall be connected with the ground water recharging system.
- vi) The solid waste generated should be properly collected and segregated. The recyclable solid waste shall be sold out to the authorized vendors and inerts shall be sent to disposal facility. The Bio-degradable solid waste shall be adequately treated as per the scheme submitted by the project proponent. Prior approval of competent authority should be obtained, if required.
- vii) Hazardous waste/E-waste should be disposed off as per Rules applicable and with the necessary approval of the Punjab Pollution Control Board.
- viii) The green belt design along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous species/variety.
- ix) The project proponent should take adequate and appropriate measures to contain the ambient air quality with in the prescribed standards. The proposal regarding mitigation measures to be taken at site should be submitted to the Ministry of Environment & Forests/ State Level Environment Impact Assessment Authority within three months.
- x) Incremental pollution loads on the ambient air quality, noise and water quality should be periodically monitored after commissioning of the project.
- xi) Application of solar energy should be incorporated for illumination of common areas, lighting for gardens and street lighting in addition to provision for solar water heating.

- xii) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
- xiii) A report on the energy conservation measures conforming to energy conservation norms finalized by Bureau of Energy Efficiency should be prepared incorporating details about machinery of air conditioning, lifts, lighting, building materials, R & U Factors etc. and submitted to the respective Regional office of MoEF, the Zonal Office of CPCB and the SPCB/SEIAA in three months time.
- xiv) Environment Management Cell shall be formed during operation phase which will supervise and monitor the environment related aspects of the project.

PART B – General Conditions :

- i) This environmental clearance will be valid for a period of five years from the date of its issue or till the completion of the project, whichever is earlier.
- ii) The environmental safeguards contained in the application of the promoter / mentioned during the presentation before State Level Environment Impact Assessment Authority/State Expert Appraisal Committee should be implemented in letter and spirit.
- iii) The entire cost of the environmental management plan (i.e. capital cost as well as recurring cost) will continue to be borne by the project proponent until the responsibility of environmental management plan is transferred to the occupier/residents society under proper MOU after obtaining prior permission of the Punjab Pollution Control Board.
- iv) The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by mail) to the respective Regional office of MoEF, the Zonal Office of CPCB and the SPCB/SEIAA.
- v) Officials from the Regional Office of Ministry of Environment & Forests, Chandigarh / State Level Environment Impact Assessment Authority / State Level Expert Appraisal Committee / Punjab Pollution Control Board who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to State Environment Impact Assessment Authority should be forwarded to the CCF, Regional Office of Ministry of Environment & Forests, Chandigarh/State Level Environment Impact Assessment Authority.
- vi) In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by State Environment Impact Assessment Authority.

- vii) Separate distribution pipelines be laid down for use of treated effluent / raw water for horticultural/gardening purposes with different colour coding.
- viii) All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest (Conservation) Act, 1980 and Wildlife (Protection) Act, 1972 etc. shall be obtained, by project proponents from the competent authorities including Punjab Pollution Control Board and from other statutory bodies as applicable.
- ix) The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental clearance and copies of clearance letters are available with the Punjab Pollution Control Board. The advertisement should be made within seven days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office, Ministry of Environment & Forests, Chandigarh.
- x) These stipulations would be enforced among others under the provisions of Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981, Environmental (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.
- xi) Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (Civil) No. 460 of 2004 as may be applicable to this project and decisions of any competent court, to the extent applicable.
- xii) A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zilla Parishad/ Municipal Corporation, Urban local body and the local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
- xiii) The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; PM_{2.5}, PM₁₀, SO₂, NO_x, CO, Pb, Ozone (ambient air as well as stack emissions) shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
- xiv) The project proponent shall comply with the conditions imposed by the CGWA in the permission granted vide letter no. 21-4(489)/NWR/CGWA/2011-3656 dated 21.05.2012 for abstraction of 283 KLD of groundwater through one tubewell only.

- xv) The project proponent is to abstract 316 KLD of ground water and permission from CGWA has been obtained for abstraction of 283 KLD of groundwater through one tubewell, as such, the promoter is required to obtain permission from CGWA abstraction of for additional quantity of groundwater to the tune of 33 KLD, which should be done within 4 months and SEIAA be informed accordingly.
- xvi) The project proponent shall adhere to the commitments made in the Environment Management Plan and Corporate Social Responsibility. The project proponent shall carry out following activities under the corporate social responsibility:
- Distribution of books and bags in the nearby villages, which are located within a radius of 10 km of from the project site.
 - Organizing Health camps, Environmental Awareness as well as Educational programmes and blood camps in the nearby villages and Derabassi.
 - Cleaning of ponds, widening of roads in the nearby villages and in Derabassi.
 - Maintaining of MC park.
 - Providing landscaping at DAV chowk Derabassi.
- xvii) The State Environment Impact Assessment Authority reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/ measures in a time bound and satisfactory manner.
- xviii) Any appeal against this environmental clearance shall lie with the National Environment Appellate Authority, if preferred, within a period of 30 days as prescribed under section 11 of the National Environment Appellate Act, 1987.
- xix) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

M/s ATS Estates (P) Ltd.,
SCO 41-42, 1st Floor, Sector 8-C,
Madhya Marg, Chandigarh

Subject: Environmental clearance under EIA notification dated 14.09.2006 for the expansion of group housing project namely "ATS Golf Meadows Lifestyle" in the revenue estate of Village-Madhopur, Tehsil Derabasi, Distt. SAS Nagar, Punjab by M/s. ATS Estates Pvt. Ltd. (Proposal no. SIA/PB/NCP/5243/2015)

This has reference to your application for obtaining Environmental Clearance under EIA notification dated 14.09.2006 for the expansion of group housing project namely "ATS Golf Meadows Lifestyle" in the revenue estate of Village- Madhopur, Tehsil Derabasi, Distt. SAS Nagar Punjab and subsequent presentation given before the State Level Expert Appraisal Committee (SEAC) for seeking prior environmental clearance for subject cited project as required under the EIA Notification, 2006. The proposal has been appraised as per procedure prescribed under the provisions of EIA Notification dated 14.09.2006 on the basis of EIA report submitted on the basis of TOR issued to the institute and the mandatory documents enclosed with the application viz., Form-1, 1-A, conceptual plan & the additional clarifications furnished in response to the observations of the SEAC.

It is inter-alia noted that the proposal involves the for the expansion of group housing project namely "ATS Golf Meadows Lifestyle" in the revenue estate of Village- Madhopur, Tehsil Derabasi, Distt. SAS Nagar, Punjab. The total land area of the project is 1,11,921.03 sqm (27.68 acres) as no additional area is to be acquired and expansion is to be done within existing premises. The total built up area will increase from 1,48,898.53 sqm to 2,97,587.66 sqm. The total population of the project will be 7,988 persons. The project proponent submitted that the land use has been approved for residential purpose in FEZ (industrial area) within the Municipal limit of Derabassi. The site is covered under residential area as per the master plan

of the Derabassi. The project proponent has proposed to provide parking @3156 ECS inside the premises.

The total water requirement for the project after expansion will be 1072 KL/day, out of which 795 KL/day will be met through own tubewells and remaining 270 KL/day will be met through recycling of treated wastewater.

The total wastewater generation from the project after expansion will be 858 KL/day, which will be treated in a centralized STP of Municipal Council, Derabassi. In summer season, the project proponent has proposed to utilize 277 KL/day of treated wastewater for flushing purpose, 226 KL/day will be used for horticulture purposes (41,057.34 sqm) and remaining waste water will be discharged into M.C. sewer. In winter season, 277 KL/day of treated wastewater for flushing purpose, 74 KL/day will be used for horticulture purposes and remaining waste water will be discharged into M.C. sewer. In rainy season, 277 KL/day of treated wastewater for flushing purpose and 21 KLD for horticulture purposes and remaining waste water will be discharged into M.C. sewer.

The total quantity of solid waste generation After expansion will be 2887 kg/day. A separate area is earmarked for the segregation of solid waste. The biodegradable waste will be converted into manure using 03 mechanical composters of 500 kg/day capacity each. The inert waste will be dumped to the approved site. The recyclable waste will be sold to the recyclers.

The total load of electricity required for group housing project after expansion will be 7000 KW, which will be taken from the PSPCL. The project proponent has proposed to install DG sets of combined capacity@4000 KVA KVA as stand-by arrangement for power back-up. The project proponent has also proposed to utilize LED lamps, solar lights and other energy efficient electrical gadgets in the project to conserve energy. Solar panels on 31.28% (2,595.69 sqm) of terrace area will be provided to generate 216 KW solar power. The E-waste generated will be stored in an isolated room and will be sold to the manufacturers as per E-Waste (Management), Rules 2016.

The project proponent has also proposed to provide 30 numbers of rain water harvesting pits to recharge the rain water. Used oil to be generated from the DG sets will be managed & handled as per the provisions of the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016.

Environment Monitoring Cell will be responsible for implementation of EMP. Rs.21 Lacs as capital cost & Rs.10 lacs/annum as recurring cost in construction phase & in operation phase, Rs.126 lacs as capital cost and Rs.12 lacs per annum as recurring cost will be incurred for implementation of EMP.

The project proponent will be responsible for the implementation of Corporate Social Responsibility. The project proponent has proposed to spend Rs.107.85 lacs/annum towards CSR activities as in addition to the amount to be spent under the provisions of the Companies Act 1956.

The case was considered by the SEAC in its 159th meeting held on 01.05.2017, wherein, the Committee awarded 'Silver Grading' to the project proposal and decided that case be forwarded to the SEIAA with the recommendations to grant environmental clearance to the project proponent subject to certain conditions in addition to the proposed measures.

Thereafter, the case was considered by the SEIAA in its 123rd meeting held on 04.05.2017, wherein, the Authority noted that the case stands recommended by SEAC and the Committee awarded 'Silver Grading' to the project proposal. Therefore, the Authority decided to grant environmental clearance to the project proponent for expansion of group housing project namely "ATS Golf Meadows Lifestyle" having total plot area of the project as 1,11,921.03 sqm (27.656 acres) and built-up area as 1,48,689.13 sqm in the revenue estate of Village Madhopur, Tehsil Derabassi, Distt. SAS, Nagar, subject to the following conditions in addition to the proposed measures. Accordingly, SEIAA, Punjab hereby accords necessary environmental clearance for the above project under the provisions of EIA Notification dated 14.09.2006 and its subsequent amendments, subject to the following conditions in addition to the proposed measures:

PART-A – Conditions common for all the three phases i.e. Pre-Construction Phase, Construction Phase and Operation Phase & Entire Life:

- (i) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
- (ii) A first aid room will be provided in the project both during construction and operation phase of the project.
- (iii) Construction of the STP, solid waste, e-waste, hazardous waste, storage facilities tubewell, DG Sets, Utilities etc, earmarked by the project proponent on the layout plan, should be made in the earmarked area only. In any case the position/location of these utilities should not be changed later-on.

- (iv) The environmental safeguards contained in the application of the promoter / mentioned during the presentation before State Level Environment Impact Assessment Authority/State Expert Appraisal Committee should be implemented in letter and spirit.
- (v) Ambient air & noise levels should conform to prescribed standards both during day and night. Incremental pollution loads on the ambient air quality, noise especially during worst noise generating activities, water quality and soil should be periodically monitored during construction phase as well as operation & entire life phase as per the Ministry of Environment, Forests & Climate Change guidelines and all the mitigation measures should be taken to bring down the levels within the prescribed standards.
- (vi) All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, and Civil Aviation Department etc. shall be obtained, by the project proponent from the competent authorities including Punjab Pollution Control Board and from other statutory bodies as applicable.
- (vii) The State Environment Impact Assessment Authority, Punjab reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/ measures in a time bound and satisfactory manner.
- (viii) A proper record showing compliance of all the conditions of environmental clearance shall be maintained and made available at site at all the times.
- (ix) The project proponent shall also submit half yearly compliance reports in respect of the stipulated prior environmental clearance terms & conditions including results of monitored data (both in hard & soft copies) to the respective Regional office of MoEF, the Zonal Office of CPCB, the SPCB and SEIAA, Punjab on 1st June and 1st December of each calendar year.
- (x) Officials from the Regional Office of Ministry of Environment & Forests, Chandigarh / State Level Environment Impact Assessment Authority / State Level Expert Appraisal Committee / Punjab Pollution Control Board who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to State Environment Impact Assessment Authority should be forwarded to the APCCF, Regional Office of Ministry of Environment & Forests, Chandigarh.
- (xi) In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by State Environment Impact Assessment Authority, Punjab.
- (xii) Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (Civil) No. 460 of 2004 as may be applicable to this project and decisions of any Competent Court, to the extent applicable.

- (xiii) The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF&CC, SEIAA, Punjab the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels for all the parameters of NAAQM standards shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
- (xiv) The inlet and outlet point of natural drain system should be maintained with adequate size of channel for ensuring unrestricted flow of water.
- (xv) The unpaved area shall be more than or equal to 20% of the recreational open spaces.
- (xvi) The project proponent shall comply with the provisions of Construction and Demolition Waste Rules, 2016.

PART-B – Specific Conditions:

I. Pre-Construction Phase

- (i) "Consent to establish" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority before the start of any construction work at site.
- (ii) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
- (iii) The approval of competent authority shall be obtained for structural safety of the buildings due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightning.
- (iv) Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, disposal of waste water & solid waste in an environmentally sound manner, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

II. Construction Phase:

- (i) All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- (ii) Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed off after taking the necessary precautions for general safety and health aspects of people with the approval of competent authority. The project proponent will comply with the provisions of Construction & Demolition Waste Rules, 2016. Dust, smoke & debris prevention measures such as wheel washing, screens, barricading and debris chute shall be installed at the site during construction including plastic / tarpaulin sheet covers for trucks bringing in sand & material at the

site.

- (iii) Construction spoils, including bituminous material and other hazardous material, must not be allowed to contaminate watercourses. The dump sites for such material must be secured, so that they should not leach into the groundwater.
- (iv) Vehicles hired for bringing construction material to the site and other machinery to be used during construction should be in good condition and should conform to applicable air emission standards.
- (v) The project proponent shall use only treated sewage/wastewater for construction activities and no fresh water for this purpose will be used. A proper record in this regard should be maintained and available at site.
- (vi) Fly ash based construction material should be used in the construction as per the provisions of Fly Ash Notification of September, 1999 and as amended on August, 2003 and notification No. S.O. 2804 (E) dated 03.11.2009.
- (vii) Water demand during construction should be reduced by use of ready mixed concrete, curing agents and other best practices.
- (viii) Adequate treatment facility for drinking water shall be provided, if required.
- (ix) The project proponent shall provide electromagnetic flow meter at the outlet of the water supply, outlet of the STP and any pipeline to be used for re-using the treated wastewater back into the system for flushing and for horticulture purpose/green etc.
- (x) The project proponent will provide dual plumbing system for reuse of treated wastewater for flushing/ HVAC purposes etc. and colour coding of different pipe lines carrying water/wastewater/ treated wastewater as follows:
 - a. Fresh water : Blue
 - b. Untreated wastewater : Black
 - c. Treated wastewater : Green
 - (for reuse)
 - d. Treated wastewater : Yellow
 - (for discharge)
 - e. Storm water : Orange
- (xi) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
- (xii) Separation of drinking water supply and treated sewage supply should be done by the use of different colors.
- (xiii) (a) Adequate steps shall be taken to conserve energy by limiting the use of glass, provision of proper thermal insulation and taking measures as prescribed under the Energy Conservation Building Code and National Building Code, 2005 on Energy conservation.

- (b) Solar power plant of capacity 216 KW shall be installed for utilizing solar energy. Also, LED lights shall be provided as proposed for illumination of common areas instead of CFL lights.
- (xiv) The diesel generator sets to be used during construction phase should conform to the provisions of Diesel Generator Set Rules prescribed under the Environment (Protection) Act, 1986.
- (xv) Separate wet & dry bins at ground level and for common areas for facilitating segregation of waste, collection centre and mechanical 03 mechanical composter of 500 kg/day capacity each, shall be provided for proper collection, handling, storage, segregation, treatment and disposal of solid waste. The project proponent shall comply with the provisions of Municipal Solid Waste (Management and Handling) Rules, 2016.
- (xvi) The project proponent shall provide 30 rainwater harvesting pits at site as proposed.
- (xvii) Green belt of adequate width as proposed shall be provided so as to achieve attenuation factor conforming to the day & night standards prescribed for residential land use. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous species/variety. A minimum of one tree for every 80 sqm of land shall be planted and maintained. The existing trees may be counted for this purpose. Preference should be given to planting native species. Where the trees need to be cut, compensatory plantation in the ratio of 1:3 (i.e. planting of three trees for every one tree that is cut) shall be done with the obligation to continue maintenance.

III. Operation Phase and Entire Life

- i) "Consent to operate" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority at the time of start of operation.
- ii) The total water requirement for the project will be 1403 KLD, out of which 1083 KL/day will be met through existing borewell and remaining 320 KL/day will be met through recycling of treated wastewater.
- iii) a) The total wastewater generation from the project will be 1122 KLD, which will be treated in a centralized STP capacity of 4 MLD of Municipal Council, Derabasi. As proposed, reuse of treated wastewater and fresh water shall be as below:

Season	Reuse for flushing (KLD)	For horticulture purpose (KLD)	Discharge into sewer (KLD)
Summer	320	208	594
Winter	320	68	734

Rainy	320	19	783
-------	-----	----	-----

- b) Storage tank of adequate capacity shall be provided for the storage of treated wastewater and all efforts shall be made to supply the same for construction purposes. Only, the surplus treated wastewater shall be discharged onto land for plantation to be developed as per Karnal Technology/ into sewer after maintaining the proper record.
- iv) The project proponent shall ensure safe drinking water supply to the habitants.
 - v) The wastewater generated from swimming pool(s) if provided shall not be discharged and the same shall be reused within the premises for purposes such as horticulture, HVAC etc.
 - vi) A proper record regarding groundwater abstraction, water consumption, its reuse and disposal shall be maintained on daily basis and shall maintain a record of readings of each such meter on daily basis.
 - vii) Rainwater harvesting/recharging systems shall be operated and maintained properly as per CGWA guidelines.
 - viii) The project proponent shall provide chute for the collection of solid waste. The facilities provided for collection, segregation, handling, on site storage & processing of solid waste, wet & dry bins, collection centre & mechanical composter etc. shall be properly maintained. The collected solid waste shall be segregated at site. The recyclable solid waste shall be sold out to the authorized vendors for which a written tie-up must be done with the authorized recyclers. Organic waste shall be composted by mechanical composters with a minimum capacity of 0.3kg/tenement/day and the inert solid waste shall be sent to the concerned collection centre of integrated municipal solid waste management facility of the area. A proper record in this regard shall be maintained.
 - ix) The project proponent shall comply with the provisions of Municipal Solid Waste (Management and Handling) Rules, 2016.
 - x) Hazardous waste/E-waste should be disposed off as per Rules applicable and with the necessary approval of the Punjab Pollution Control Board.
 - xi) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
 - xii) The green belt along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use.
 - xiii) Solar power plant and other solar energy related equipments shall be operated and maintained properly.
 - xiv) A report on the energy conservation measures conforming to energy

conservation norms should be prepared incorporating details about machinery of air conditioning, lifts, lighting, building materials, R & U Factors etc. and submitted to the respective Regional office of MoEF, the Zonal Office of CPCB and the SPCB/SEIAA in three months time.

- xv) Environmental Management Cell shall be formed during operation phase which will supervise and monitor the environment related aspects of the project.

PARTC – General Conditions :

I. Pre-Construction Phase

- i) This environmental clearance will be valid for a period of seven years from the date of its issue or till the completion of the project, whichever is earlier.
- ii) The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental clearance and copies of clearance letters are available with the Punjab Pollution Control Board. The advertisement should be made within seven days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office, Ministry of Environment & Forests, Chandigarh and SEIAA, Punjab.
- iii) The project proponent shall obtain permission from the CGWA for abstraction of groundwater & digging of bore well(s) and shall not abstract any groundwater without prior written permission of the CGWA, even if any bore well(s) exist at site.
- iv) The project proponent shall obtain CLU from the competent authority.
- v) A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zilla Parishad/ Municipal Corporation, Urban local body and the local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.

II. Construction Phase

- i) The Environment Management Cell shall adhere to the commitments made in the Environment Management Plan for the construction phase and Corporate Social Responsibility and shall spend minimum amount of Rs.21 Lacs as capital cost & Rs.10 lacs/annum as recurring cost. The project proponent shall adhere to the commitments made in the proposal for CSR activities and shall spend a minimum amount of Rs. 248.65 lacs as proposed.

III. Operation Phase and Entire Life

- i) a)The entire cost of the environmental management plan will continue to be borne by the project proponent until the responsibility of environmental management plan is transferred to the occupier/residents society under proper MOU under intimation to SEIAA, Punjab. The project proponent shall spend minimum amount of Rs.126 lacs as capital cost and Rs.12 lacs per

annum as recurring cost for implementation of EMP.

b) The project proponent shall specifically spend Rs. 107.85 lacs/annum on the CSR activities i.e. Environmental Mela, Crèche & School for labout kids, Distribution of clothes, books and items in the nearby villages, Arrangement of Sports competition in nearby schools, Beautification of choe, Health checkup camps & Landscaping and maintenance of DVA Chownk Dera Bassi and will also facilitate GMADA for laying sewer pipelines through their own ATS land valued Rs. 6 crores for connection with Govt. STP as proposed.

- ii) The diesel generator sets to be provided shall conform to the provisions of Diesel Generator Set Rules prescribed under the Environment (Protection) Act, 1986. The exhaust pipe of DG set if installed must be minimum 10 m away from the building or in case it is less than 10 m away, the exhaust pipe shall be taken upto 3 m above the building.

Endst. No.897-904

Dated 05.05.2017

A copy of the above is forwarded to the following for information & further necessary action please.

1. The Secretary to Govt. of India, Ministry of Environment, Forest & Climate Change, Indira Paryavaran Bhawan, Jorbagh Road, New Delhi - 110 003.
2. The Chairman, Central Pollution Control Board, Parivesh Bhawan, CBD-cum-office Complex, East Arjun Nagar, New Delhi.
3. The Chairman, Punjab State Power Corporation Ltd, the Mall, Patiala.
4. The Deputy Commissioner, SAS Nagar (Mohali).
5. The Chairman, Punjab Pollution Control Board, Vatavaran Bhawan, Nabha Road, Patiala.
6. The Director (Environment), Ministry of Environment and Forest, Northern Regional Office, Bays No.24-25, Sector-31-A, Chandigarh. The detail of the authorized Officer of the project proponent is as under:
 - a) Name of the applicant : Sh. R.A.S Bhullar, V.P.
 - b) Contact no. : 092566-76086
7. The Chief Town Planner, Department of Town & Country Planning, 6th Floor, PUDA Bhawan, Phase-8, Mohali
8. The Monitoring Cell, Ministry of Environment, Forest and Climate Change, Indira Paryavaran Bhawan, Jorbagh Road, New Delhi - 110003.

RESULTS

I- Chemical Testing

1. Atmospheric Pollution (Ambient Noise Level)

S.No.	Test Parameters	Units	Results	Method
1	Ambient Day Time Noise Levels	dB(A)	54.1	LAB SOP: EL/SOP/AN/01, Issue No.-04, Nov 10

Ambient Noise Quality Standards as per Noise Pollution (Regulation and Control) Rules, 2000

Area Code	Category of Area/Zone	Limits in dB(A) Leq*	
		Day Time	Night Time
A	Industrial area	75	70
B	Commercial area	65	55
C	Residential area	55	45
D	Silence Zone	50	40

Day time shall mean from 6.00 a.m. to 10.00 p.m., Night time shall mean from 10.00 p.m. to 6.00 a.m., Silence zone is an area comprising not less than 100 meters around hospitals, educational institutions, courts, religious places or any other area which is declared as such by the competent authority, Mixed categories of areas may be declared as one of the four above mentioned categories by the competent authority.

*dB(A) Leq denotes the time weighted average of the level of sound in decibels on scale 'A' which is relatable to human hearing

All the term and conditions same as mentioned in the original "Consent to Establish"(NOC) no. CTE/Ext/SAS/2020/14101270 dated 22/12/2020, valid upto 15/6/2021 issued to the project proponent. This extension letter may be appended with the original "Consent to Establish"(NOC) letter issued to the project proponent and subsequent extension letters with an additional condition as under:

1. The project has been approved by the Board from pollution angle and the promoter shall obtain the approval of site from other concerned departments and valid for development of residential project having 1,242 dwelling units, 125 EWS units, 24 shops, 10 booth & 2 community.
2. The promoter shall ensure the compliance of conditions of environmental clearance granted vide no. SEIAA/2017/896 dated 5/5/2017 under the EIA Notification dated 14/9/2006.
3. The promoter shall obtain revised EC from the competent authority, if need be.
4. The promoter shall ensure the compliance of provisions contained in notification no. 3/6/07-STE(4)/2274 dated 25/7/2008 notified by the Government regarding siting policy / guidelines for establishment of residential colonies, commercial establishments like shopping malls, multiplexes in the State of Punjab, before starting any development / construction activities at site.
5. The promoter shall develop its project strictly in accordance with the layout / building plans approved by the Competent Authority.
6. The promoter shall install sewage treatment plant simultaneously alongwith the construction of the project and the adequacy & efficacy of the sewage treatment plant will be the entire responsibility of the promoter.
7. The promoter shall get its wastewater analyzed from the Board's Lab/Laboratory approved by the Board at least four times in a year and shall submit the analysis results to the Board.
8. The promoter shall ensure that the effluent discharged shall conform to the effluent standards laid down by the Board / MoEF&CC from time to time.
9. The promoter shall lay down pucca distribution network / pipe grid from the STPs to the various green lawns / stretches / dual plumbing system for flushing purposes / for construction activities and shall not allow it to stagnate anywhere inside or outside the project.
10. The treated wastewater shall be used for flushing purposes / HVAC / construction activities (upto maximum extent) and balance, if any, shall be discharged onto land for plantation / horticulture / green lawns conforming to the effluent standards prescribed by the Board / Ministry of Environment and Forests & Climate Change.
11. The promoter shall not discharge the treated effluent into any drain.
12. The promoter shall irrigate the green belt / area to be developed within the project area with the treated wastewater only and no fresh water will be used for this purpose as well as for construction activities within the project. The promoter shall make adequate arrangements i.e. lay down separate network of pipelines for this purpose simultaneously, alongwith the development of the project.
13. The promoter shall install separate energy meter for its sewage treatment plant and maintain the record on daily basis of consumption of energy for the running and maintenance of sewage treatment plant.
14. The promoter shall not consume any fuel except HSD in DG set(s) without obtaining prior written permission from the Board.
15. The promoter shall obtain the authorization under the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016.
16. The promoter shall ensure the compliance of the Solid Waste Management Rules, 2016 as well as the Construction and Demolition Rules, 2016.
17. The promoter shall ensure the compliance of the E-Waste (Management) Rules, 2016.
18. The promoter shall ensure the provisions contained in the guidelines / criteria for abstraction of ground water, notified by the Central Ground Water Authority (CGWA) from time to time and obtain revised permission from authorities concerned in this regard.
19. The promoter will provide mechanical composter for conversion of solid waste into compost.
20. The promoter will ensure that urinals in atleast in 2 bathrooms of apartments are provided to reduce the consumption of fresh water.
21. The promoter will also ensure that the residents will provide aquaguards instead of RO system to reduce the consumption of

ਐਨ.ਓ.ਸੀ ਹੇਠ ਲਿਖੀਆ ਸ਼ਰਤਾਂ ਦੇ ਆਧਾਰ ਤੇ ਜਾਰੀ ਕੀਤਾ ਜਾਂਦਾ ਹੈ।

1. Fire Safety arrangements shall be kept in working condition at all the times.
ਹਰ ਸਮੇਂ ਅੱਗ ਤੋਂ ਬਚਾਅ ਦੇ ਯੰਤਰਾਂ ਨੂੰ ਚਾਲੂ /ਚੱਗੀ ਹਾਲਤ ਵਿੱਚ ਰੱਖਿਆ ਜਾਵੇ।
2. Occupants/ owner should have trained staff to operate the operation of fire safety system provided there in.

ਉਪਲੱਬਧ ਅੱਗ ਬੁਝਾਉਣ ਦੇ ਯੰਤਰਾਂ ਦੀ ਵਰਤੋਂ ਤੋਂ ਰਹਿਣ ਵਾਲੇ ਲੋਕਾਂ / ਮਾਲਕਾਂ ਨੂੰ ਜਾਣੂੰ ਕਰਵਾਇਆ ਜਾਣਾ ਯਕੀਨੀ ਬਣਾਇਆ ਜਾਵੇ।

3. Fire Officer can check the arrangements of fire safety at any time, this certificate will be withdrawn without any notice if any deficiency is found.

ਫਾਇਰ ਬ੍ਰਿਗੇਡ ਅਧਿਕਾਰੀ ਕਿਸੇ ਵੀ ਵਕਤ ਇਨ੍ਹਾਂ ਸਾਰੇ ਪ੍ਰਬੰਧਾਂ ਨੂੰ ਚੈੱਕ ਕਰ ਸਕਦਾ ਹੈ, ਜੇ ਕਰ ਕੋਈ ਕਮੀ ਪਾਈ ਗਈ ਤਾਂ ਬਿਨਾਂ ਕਿਸੇ ਨੋਟਿਸ ਦੇ ਇਹ ਸਰਟੀਫਿਕੇਟ ਰੱਦ ਸਮਝਿਆ ਜਾਵੇਗਾ।

4. Occupants/ owner should apply for renewal of fire safety certificate one month prior to expiry of this certificate.

ਮਾਲਕ ਜਾਰੀ ਕੀਤੇ ਗਏ ਫਾਇਰ ਸੇਫਟੀ ਸਰਟੀਫਿਕੇਟ ਦੀ ਮਿਤੀ ਖਤਮ ਹੋਣ ਤੋਂ ਇੱਕ ਮਹੀਨਾ ਪਹਿਲਾਂ ਰੀਨੀਊ ਕਰਵਾਉਣ ਲਈ ਪਾਬੰਦ ਹੋਵੇਗਾ।

* Above Details cannot be used as ownership proof.

ਉਪਰੋਕਤ ਦਰਸਾਈ ਗਈ ਜਾਣਕਾਰੀ ਨੂੰ ਮਾਲਕਾਨਾ ਦੇ ਸਬੂਤ ਵਜੋਂ ਨਹੀਂ ਵਰਤਿਆ ਜਾਵੇਗਾ।

* This is digitaly created cerificate, no signatue are needed

ਇਹ ਡਿਜੀਟਲੀ (ਕੰਪਿਊਟਰਾਈਜ਼ਡ) ਤਿਆਰ ਕੀਤਾ ਗਿਆ ਸਰਟੀਫਿਕੇਟ ਹੈ, ਜਿਸ ਵਿੱਚ ਦਸਤਖਤ ਦੀ ਕੋਈ ਲੋੜ ਨਹੀਂ ਹੈ।
