

## Health Safety and Environment Policy

ATS Infrastructure is committed to provide a Health and Safety Environment for our staff, customer, contractors, associates and other stakeholders by

- Focusing on Health and Safety Environment of our people, preservation and protection of environment, pollution prevention, at all times and in all circumstances.
- Ensuring compliance in line with the HSE requirements during design and delivery of services as per applicable national codes, standards and procedures, sound engineering practices and statutory requirements.
- Commitment to enrich the behavioral attitude of our employees and associates towards positive Health and Safety Environment and creating the awareness for an accident free work place while achieving the organizational goals.
- Observe, analysis and identify the HSE risks arising from our activities to reduce them to as low as reasonably practical.
- Setting the HSE goals and performance objectives, using effective management system and performance evaluation.
- Developing the "Will", Knowledge and Skill among employees / contractors / associates to subsume their involvement, responsibility and accountability to achieve sound safety, health and safety environment practices & performances.
- Monitor, evaluate and continuously improve our HSE performance through the definition of standards, trainings, inspections & assessments.
- Continuing to strengthen our systems and procedures for preventing and mitigating any potential emergency situation.
- Ensuring our associates, contractors are aware of our policies, standards and where necessary, work with them to uplift their standards.

ATS Infrastructure requires every employee at all levels to take personal responsibility for HSE by focusing on own behavior, we seek continual improvement of our activities by integrating HSE objectives into our management system at all levels.
